understanding the fundamentals of C# and ASP.NET

PROJECTS

KOOVS-E-commerce website

Utilizing Reactjs and other tools, I created a full front-end design from scratch. Work with backend teams and customers to identify and document product bugs and feature requests, and to execute workable fixes.

FamilyID-Assessment Platform

Angular and other tools were used to construct a complete frontend design and integrate the APIs from the backend. Work with backend teams and customers to identify and document product bugs and feature requests, and to execute workable fixes.

Travel App-MERN stack

Developed a complete project centered on customer satisfaction utilizing the Mern stack
